

MEDICAID PROVIDER ONBOARDING TO HEALTH INFORMATION EXCHANGE (HIE) PROGRAM

SPONSORED BY  **NJ Health**
New Jersey Department of Health

New Jersey Department of Human Services, Division of Medical Assistance and Health Services has engaged with NJII to advance and expand the use of and connectivity to New Jersey Health Information Exchange. (NJHIN). The NJHIN is owned by the New Jersey Department of Health (NJDOH). The New Jersey Innovation Institute (NJII) is the state designated entity responsible for developing and managing the network.

Why participate?

NJHIN is the hub where all Health Information Exchanges data will flow and be directed to the proper providers. We are starting with the Admit, Discharge and Transfer Notifications (AD and eventually will include other data. We are also supporting the future exchange of CCDAs, COVID-19 tracking and tracing, substance use disorders, and the Immunization and Birth and Death Registries. Our goal is for all providers to seamlessly exchange data to improve patient care.

By onboarding, providers will be able to receive ADTs from all New Jersey hospitals. This will not only assist them in caring for their patients, but insurance companies are reimbursing at a higher rate for improved Transitions of Care.

Providers will receive real-time ADT notifications from 71 NJ hospitals on their patients that will assist in faster treatment. Governor Murphy signed 4476 on 09/16/2020. [View the legislation here.](#)

What can NJII do for participants?

NJII will assist providers in connecting to the NJHIN and provide access to receive Admission, Discharge and Transfer (ADT) alert notifications for their selected patients.
